

# LTC Compare

U.S. Government site. The primary purpose of this tool is to provide detailed information about the past performance of every Medicare and Medicaid certified nursing home in the country. This tool gives detailed information about Medicare-certified home health agencies. New home health agencies may not appear for several months after being approved by Medicare. [MemberoftheFamily.net](http://MemberoftheFamily.net) provides information about 16,000 Medicare/Medicaid-certified nursing homes in the United States, including easy-to-understand reports based on recent government surveys.
